FINE CUT
(AMENDED EDITION)

JUNE 2014

G'day all,

As our FINE CUT newsletter Editor is again, and again, and again away on holidays, (the lucky bugger), our Secretary Phil Knight and myself will share the news with you this month in separate Emails.

My news is about the Bus trip.

As you may remember, unfortunately, at the very last minute, due to the bus breaking down, we had to cancel the trip.

I am happy to tell you that repairs have been made, we have been able to re-book at the Wollondilly Heritage Centre on Wednesday 23 JULY 2014, so the bus trip is back on.

All the details of the trip as set out in previous Emails remain the same, and I will send a final reminder a couple of days before we go.

The only thing I can add to this is to suggest you bring your camera – the Burraborang Lookout is a great view and we should make time to go there.

Please contact me if you would like to go; partners and/or friends are invited.

To those of you who previously pre-paid for the trip, if you cannot go this time you will get a refund.

Regards,

IanG

Late breaking news not in the early edition of the FINE CUT Newsletter sent earlier today;

Next Tuesday night's Club Night Meeting has been named "Handsaw Night", and Doug Cox is going to give a talk on the various types of

saws and the long lost art of cutting timber by hand - this is a “hands on” night.

To make this an interesting evening you are requested to bring along your favourite saw.

It doesn't have to be a beautiful polished tool with a special handle, just the saw you are comfortable with, and use in your workshop as and when required.

It may be a very old prized possession or a \$10.00 “Bunnings Special”, and electric/battery driven saws are not included; it must be a hand saw.

It can be a Japanese saw or one of the many different sized saws including a dovetail saw, a tenon saw, a panel saw, a hand saw, a rip saw, or a combination of these, or in fact all of the above if you have them.

If some one actually has a rip saw please bring it with you.

If you can manage it, please also bring along a saw stool and/or a bench hook.

Regards,

Ian G.
